An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In the specification, on page 1, paragraph 2, line 1, "09/563,070" has been deleted and replaced by --09/563,707, now abandoned,--.

The following is an examiner's statement of reasons for allowance:

The presently claimed invention is directed to determining a change in spore morphology with multiangle light scattering to produce profiles before and after sterilization which profiles are correlated with sterilization effectiveness, whereas the references of record teach determining a rate of germination which is then correlated with a spore kill curve.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ralph Gitomer whose telephone number is (571) 272-0916. The examiner can normally be reached on Monday - Friday.
